FURNITURE PLYWOOD

# IMAGYN FURNITURE PLYWOOD

IMAGYN Furniture Plywood is a product with wood core (acacia, eucalyptus, styrax, rubberwood...) and wood raw veneer surface for interiors.

## Applications

## Core veneer materials

Plywood manufactured by legally sourced plantation wood (acacia, eucalyptus, rubberwood and styrax)

## Grading options

- A Grade Face: Completely clean face, fully sanded with some minor colour variation, making it ideal for painting and finishing
- A/B Grade Face: Generally clean face (some patches in one side) but with minor splits/cracks repaired & sanded
- B/B and B/C Grade Face: A veneer face that can be repaired, primed, stained, lacquered or painted to suit the end application, suitable for using in rear side or non-visible surface

## Standard size

2,440 x 1,220 mm (other size can be cut as request) with tolerance:  $\pm 0.8$  mm

Squareness tolerance:  $\leq 2.4$  mm

Edge straightness tolerance:  $\leq 1.2$  mm

## Standard thickness

5mm, 6mm, 9mm, 12mm, 15mm, 18mm

Thickness tolerance: Follow ANSI/HVPA-HP-1-2016

## Common face veneer options
